May 5, 1975

or what part that is of the \$965,000. I will get you a breakdown on that in just a moment.

SENATOR KEYES: All right. But it does seem funny to me that at a time when our country is having a heck of a time making it and the time that the state of Nebraska are having hard times. I just paid my income tax and I borrowed the money to do it and here we are. Nobody can tell me what good these two departments are doing. I haven't seen anybody stand on the floor of the Legislature and tell me that business has come in or that we have had a lot of tourists coming down through here and adding to our wealth. So if they are not doing anything for one year, let's declare a moratorium and get rid of them. I have an amendment drawn on each one of these bills and I will try to put it on on Select File and that is simply going to take the General Fund obligation of this state to each one of these bills and cut it 10%. I think we can operate our state that way and we can leave our sales tax and our income tax exactly where it is today and keep this state going.

PRESIDENT: The question is, shall LB 604 advance. Record your vote. Record.

CLERK: 36 ayes, 0 nays on the motion to advance, Mr. President.

PRESIDENT: Motion carries. Mr. Clerk. We have some things to read into the record first, Senator Marvel.

CLERK: Mr. President, your Committee on Enrollment and Review reports they have examined engrossed legislative bill 32, 50, 50A, 298, 387, 395 and 553 and, Mr. President, Legislative Resolution #41 will be inserted in the Journal. LB 606, Mr. President, introduced by the members of the Appropriations Committee and signed by the members thereof. Read title.

PRESIDENT: Senator Marvel.

SENATOR MARVEL: I speak on a motion to advance the bill to E & R initial. This deals strictly with the operation of the Legislative Council and with your permission I will yield to the Chairman of the Executive Board, Senator Mahoney.

PRESIDENT: The Chair recognizes Senator Mahoney.
